Quadro runner

The core piece of good drawers

Sturdy, smoothly gliding drawer runners:

The Quadro runner forms the high quality core of the InnoTech drawer. Even though it is invisible, its superlative quality is perceptible: the sophisticated steel ball-bearing ensures smooth running even after many years of constant use. With every Hettich partial extension and full extension, with and without Silent System – up to 70 kg load-bearing capacity.

InnoTech quality ... a confident core argument for your sales discussion.

Part extension runner:
load capacity up to 25 kg

Full extension runner without Silent System:
load capacity up to 30 kg

Full extension runner with Silent System:
load capacity up to 30 kg, up to 50 kg or up to 70 kg

Brilliant design highlights

Individuality through material and design:

The drawer profiles and TopSides of the InnoTech system can be combined to form a high quality and attractive material mix. The decorative profiles in chrome and stainless steel effect set eye-catching highlights.

Without TopSide

Steel TopSide

Lends wings to your kitchen

Surprising innovations and extras:

Anyone who wishes to arouse the customer's curiosity when purchasing a kitchen needs something special and surprising. A well thought-out detailed solution is often the decisive factor. InnoTech offers many innovative unique selling points which lend an exclusive touch to a kitchen.

XL pan drawer – More space for bulky items

OrgaFlex – Offers storage space around the siphon

OrgaWing – Small items stored practically and neatly

Inside drawer front panels – Decorative, organisable internal drawers

The freely combinable modular system

Drawers shape the character and impression of quality of a kitchen in a particular way. Surprise your customers with the unexpected!

The InnoTech drawer system sets visual and functional highlights behind the unit fronts. The versatile components can readily be grouped together to form attractive combinations which are fascinating and unique. InnoTech allows you to present ideas that bear fruit in everyday use in the kitchen.
